Walk on Art

Art carpets

The passion we feel for design translates into creating meaningful and beautiful designs.

Each bespoke carpet we make is a unique work of art, but one with added value in its functionality.

Lush carpets handmade in Nepal employing the very best tibetan wool, silk and cashemere.

Bold designs come together in a wonderland of patterns fused with a vibrant color palette that merge touch and feel simultaneously.

We blend, mix, juxtapose and empower our designs as forms of art.

"I conceive art and design as a journey, an experience within a process. Ideas and ideals that emerge from the soul; my essence.

Instinct drives the creativity as I enjoy challenging perceptions of people and places transcending through art, textiles and carpets, in a world of colors, textures, shapes and materials that feel alive."

Julia Tonconogy Pfeiffer
