IN DIALOGUE WITH ART

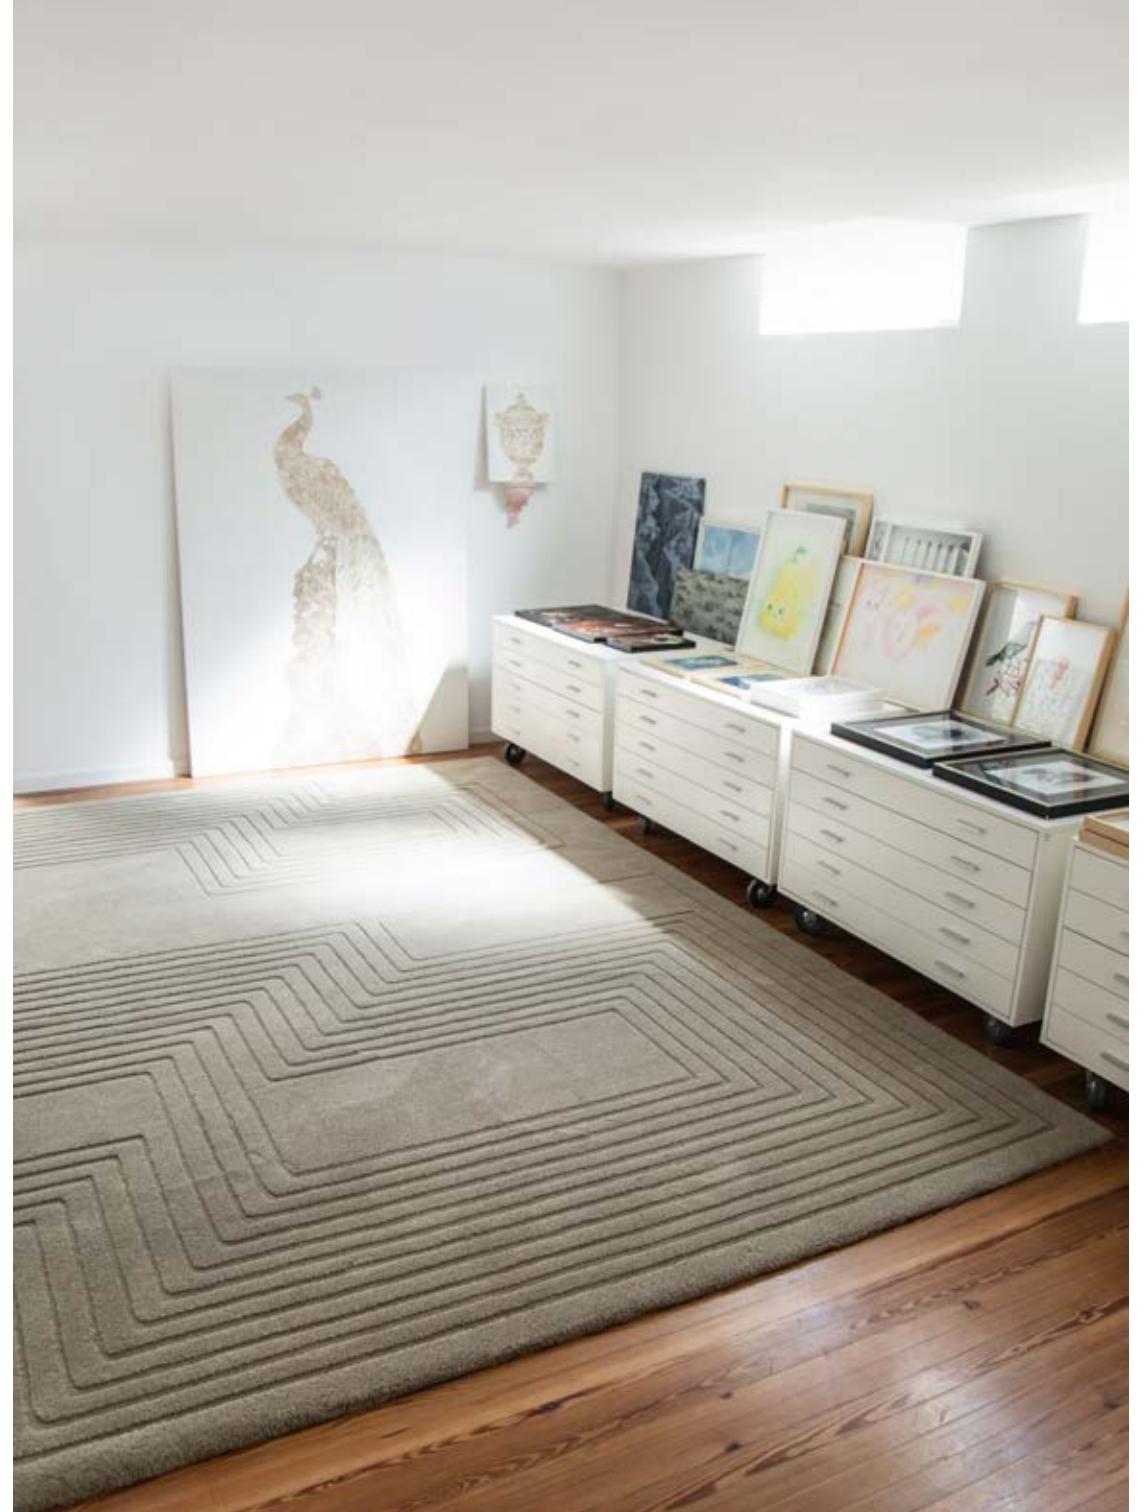

IN DIALOGUE WITH ART

Art is an instrument for meaning-making, sense-making, image-making and creating deeper levels of conversation about what matters. Arts-based learning develops creativity, community and connection.

Dialogue is characterized by incisiveness, creativity, and synergizing diverse points of view into a cohesive understanding that illuminates new insights, enabling decision-making and action.

Collaborative art-making processes help nurture relationships between dissimilar groups, fostering an appreciation for diverse and pluralistic points of view.
